GARMENT CARE

IMPORTANT

Always follow the instructions on the inside care label carefully. They provide specific details about how to clean, dry and iron your garment.

Washing instructions

-  Wash at 40° C/105° F
-  Tumble dry low
-  Do not Bleach
-  Iron up to 110° C/230° F

Garment composition

98% Polyester
11% Elastane

WASHING • DRYING • IRONING

- Keep colours separate.
- Some garments might contain surplus colour from production, that might come out when washed.
- Always wash clothes at the temperature setting indicated. (Too cold temperature can cause “colour bleeding” from surplus colour dye).
- Always wash garments inside out.
- Take the garment out as soon as the washing cycle is done.
- Do not use fabric softener, unless clearly indicated.
- If washing by hand, make sure the detergent is properly dissolved before inserting the garment.
- Do not rub garments, simply rinse gently.
- Use bleach in according to instructions on product.
- Place heavy knitted items on a towel and allow them to dry flat.
- Do not expose to direct sunlight or heat.
- Place a piece of fabric between garment and iron to avoid damp marks.
- Ironing is easier when the garments are still slightly damp.
- Garments with technical features like water or dirt repellent surfaces should be washed with special detergent.
- When the technical surfaces wear off apply a new treatment. Available as a pump-spray or wash-in product to the garment’s outer fabric.
- Garments including cotton, bamboo, rayon and viscose can shrink from 5-10% when washed for the first time. Carefully stretch into shape when still wet, before laying flat or hung to dry. (5-15% shrinkage with tumble dryer).

ALL GARMENTS CARE REFERENCES ARE ACCORDING TO ISO 3758-2012
ANY CLAIM MUST BE HANDED IN TO THE POINT OF SALE (IN A CLEAN CONDITION)
WHERE THE PRODUCT HAS BEEN PURCHASED, INCLUDING THE PURCHASE RECEIPT.
IN CASE OF DOUBTS REGARDING “ POINT OF SALE” CONTACT YOUR NEAREST KINGSLAND REPRESENTATIVE.
IF THE PRODUCT SUBJECT TO A CLAIM SHOWS POSSIBLE MISTREATMENTS,
KINGSLAND HAS THE RIGHT TO USE A THIRD PARTY TESTING FACILITY.
THE COST FOR THIS WILL BE INVOICED TO THE PARTY CLAIMING IF THE TEST SHOWS THAT A PRODUCT
HAS NOT BEEN TREATED ACCORDING TO CARE LABEL INSTRUCTIONS.
